Portfolio: <https://adolfschmuck.com/>

Web developer with over 10 years of experience in ESL instruction currently focusing on building clean, savvy applications. Seeking to use proven skills in front-end and back-end coding and collaboration developed and improved upon in Web Development Bootcamp to meet the needs of projects involving full-stack technology. An experienced professional with a superb work ethic passionate about developing great products as a front-end web developer.

**Technical Skills:** HTML, CSS, Bootstrap, Media Queries, JavaScript, jQuery, Git, the command line, GitHub, Node.js, NPM, Express.js, React.js, MySQL, MongoDB, Firebase, APIs, JSON, REST, AJAX, and Heroku.

## APPLICATIONS BUILT

### Raygun Circus (Role: Front-end Developer)

- The official website for Raygun Circus, an indie band from San Diego, that features pages with music for users to listen to, embedded YouTube videos, links to other related social pages, and more.
- Languages and technology used: JavaScript, Enformed.io, Lightbox, Animate.css, Bootstrap, CSS, and HTML.
- Live website: <https://rayguncircus.com/>

### The Simpsons Clicky Game (Role: React Developer)

- A React application that tests the user's memory with a Simpsons-themed memory game.
- Languages and technology used: React.js, ES6, NPM packages: ReactHowler and SweetAlert, Bootstrap, and CSS.
- Deployed application: <https://answebdev.github.io/clicky-game/>

### Eat-Da-Burger! (Role: Full-stack Developer)

- A full-stack restaurant application that allows users to input the names of burgers they'd like to eat; burgers are kept in the waiting area until they are eaten.
- Languages and technology used: Express.js, Node.js, Handlebars, MySQL, homemade ORM, AJAX/APIs, jQuery, HTML, CSS, and Bootstrap.
- Deployed application: <https://radiant-island-72390.herokuapp.com/>

### LIRI Bot (Role: Back-end Developer)

- A command line Node app that allows the user to search for songs, concerts, and movies.
- Languages and technology used: Node.js; the command line; APIs from Bands In Town, Spotify, and OMBD; NPM packages: fs, Moment, Request, and the Node-Spotify-API.
- Video demo: [https://drive.google.com/file/d/1zTTCWQ063xKTVHmKXtmQ4XHE-XpSAP\\_5/view](https://drive.google.com/file/d/1zTTCWQ063xKTVHmKXtmQ4XHE-XpSAP_5/view)

### Bar Finder (Role: Front-end Developer on a team of four)

- A web application that allows the user to search for a bar based on location and bar type, as well as search for drink recipes.
- Languages and technology used: HTML, CSS, JavaScript and jQuery; Bootstrap, Semantic UI; Firebase; AJAX; APIs from Open Brewery DB, TheCocktailDB, and Google Maps.
- Deployed application: <https://brysonelson.github.io/project-gpgp/>

## PROFESSIONAL EXPERIENCE

### San Diego, CA

*Freelance Front-end Web Developer, February 2019 – Present*

- Designing and developing user-friendly designs utilizing HTML, CSS, Bootstrap, jQuery, JavaScript, and other technology.
- Modifying, updating, and maintaining web applications as needed.
- Diagnosing, troubleshooting, and resolving problems and bugs in code in a timely manner.

### Grossmont College, El Cajon, CA

*Professor Adjunct, January 2016 – Present*

- Organizing and delivering well-developed lesson plans with attention to detail and creativity.
- Fostering a culture of learning and structure to help students succeed in an academic setting.
